- The frequency analysis code showed that “z” and E are a potential match, so when I swapped the two, I saw that there were many occurrences of the word “npE” which could be “THE”.
- I saw many instances of “fg”, “Tf”, “uk”, “ug”, and “u”. Because “u” can be alone, I would guess that it is I, and therefore “f” is likely O.
- After trying that, I saw “THOcE” which could only be “THOSE” and “ThEOixH” which must be “THROUGH”.
- I could then tell that the first few words were “THE PATH OF THE RIGHTEOUS” instead of “THE ayTH Og THE RIGHTEOUS”
- Words like “POISON” and “SHEPHERD” became easy to find by only missing one letter.
- After plugging in letter by letter I recovered the following plain text.

Plain text:

THE PATH OF THE RIGHTEOUS MAN IS BESET ON ALL SIDES BY THE INEQUITIES OF THE SELFISH AND THE TYRANNY OF EVIL MEN. BLESSED IS HE WHO, IN THE NAME OF CHARITY AND GOOD WILL, SHEPHERDS THE WEAK THROUGH THE VALLEY OF THE DARKNESS, FOR HE IS TRULY HIS BROTHER'S KEEPER AND THE FINDER OF LOST CHILDREN. AND I WILL STRIKE DOWN UPON THEE WITH GREAT VENGEANCE AND FURIOUS ANGER THOSE WHO ATTEMPT TO POISON AND DESTROY MY BROTHERS. AND YOU WILL KNOW I AM THE LORD WHEN I LAY MY VENGEANCE UPON YOU.
